## PREFACE

The references presented in the following bibliography cover the period from January 1, 1965, to January 1, 1967. In addition, some references which were overlooked in the preparation of the original bibliography, which covered the period from January 1, 1950, to January 1, 1965, have been included.

References are arranged in major interest categories as suggested by members of an advisory committee including the departments of Recreation and Outdoor Education, Physical Education, Rehabilitation, Special Education, Speech Correction, and Sociology.

Many of the references deal with more than one phase of recreation for the handicapped. The bibliographical entries have been placed under the headings where they seem to most logically fall.

A supplement to the bibliography will be issued yearly to keep the references up to date.

The bibliography was prepared by the Information Center--Recreation for the Handicapped. The Center is supported in part by a grant from the Vocational Rehabilitation Administration, the Department of Health, Education, and Welfare, Washington, D.C., in cooperation with Southern Illinois University, Carbondale, Illinois 62901.
